SKILLS

Languages : Java, C++,C
Frameworks : Node.js, Next.js
Tools/Platforms : NeonDB, MongoDB, AWS
Soft Skills : Adaptability, Critical-Thinking, Accountability

PROJECTS

ClipScale: AI Powered SaaS | GitHub Feb 2026

- Developed an AI-powered SaaS platform enabling users to upload, compress, and download optimized images and videos with customizable aspect ratios.
- Implemented secure authentication and user session management using Clerk.
- Integrated Cloudinary for real-time media compression, transformation, and optimized asset delivery.
- Designed a responsive UI using Tailwind CSS and DaisyUI to ensure seamless user experience.
- Architected the platform for scalable cloud deployment (Vercel) with CDN-backed asset delivery.
- **Tech Stack**: Next.js, Clerk, NeonDB, Cloudinary, Tailwind CSS, DaisyUI

Authentication System | GitHub Jan 2026 – Feb 2026

- Engineered a full-stack authentication system using Next.js API Routes, MongoDB, JWT, and bcrypt to enable secure signup, login, and protected profile access via httpOnly cookie-based sessions.
- Implemented token-based email verification and password reset workflows to ensure secure account activation and secure account recovery.
- Strengthened access control through structured validation, centralized error handling, and secure session management to prevent unauthorized access.
- Ensured scalable and maintainable auth architecture with modular API design and optimized database queries for efficient user authentication flow.
- **Tech Stack**: Next.js, React.js, MongoDB, JWT, bcrypt

Serverless Event Registration System Mar 2025 – Apr 2025

- Developed a fully serverless event registration system to automate attendee data handling.
- Integrated AWS Lambda for backend logic, DynamoDB for scalable storage, and API Gateway for secure API access.
- Implemented role-based access control with IAM and real-time data validation via Python backend and achieved an **85%** accuracy rate.
- Designed a responsive frontend enabling seamless API integration and real-time user feedback.
- **Tech Stack**: AWS Lambda, DynamoDB, API Gateway, IAM

CERTIFICATES

Java (Basics) | HackerRank Oct 2025
Advanced Computer Networks | NPTEL May 2025
Introduction to Hardware and Operating System | Coursera Sep 2024

ACHIEVEMENTS

Achieved 3-Star rating in Problem Solving on HackerRank Feb 2026
Secured 2nd place among 80+ participants in a competitive AWS-based technical challenge at Lovely Professional University. Apr 2025
Secured AIR 2413 / 300,000+(Top 0.8%) participants in a national weekly coding competition on Unstop. Feb 2025

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology Aug 2025 – Present
Computer Science and Engineering; CGPA: **8.29**

R.B College Samastipur, Bihar
Intermediate Mar 2020 – Mar 2022
PCM; Percentage: **83.00%**

Rose Bud Academy Khagaria, Bihar
Matriculation Mar 2019 – May 2020
Percentage: **88.40%**
